

The University of Texas at Austin

Mouse Transgenic Facility Coordinator **The Institute for Cellular and Molecular Biology**

The Institute for Cellular and Molecular Biology (ICMB) at The University of Texas at Austin is seeking a candidate to run the well-equipped Mouse Genetic Engineering Facility (MGEF). This position requires an extensive background in pronuclear and blastocyst injections as well as working with ES cells. Previous experience in managing a facility is highly desirable. Additional information about the MGEF and the Institute can be found at www.icmb.utexas.edu/facilities/

The Institute covers all salary costs and provides administrative support for the facility, which currently has several well trained employees. This is an exciting opportunity for someone who enjoys hands-on manipulations, implementing new techniques and working with other scientists.

Interested individuals are strongly encouraged to apply at <http://www.utexas.edu/hr/prospective/apply/process.html> for job posting 09-06-23-01-4208. For questions, please contact Dr. Steven Vokes at svokes@mail.utexas.edu

Austin is located in the Texas hill country and is widely recognized as one of America's most beautiful and livable cities.

*The University of Texas at Austin is an Equal Opportunity Employer.
Qualified women and minorities are encouraged to apply; a background
check will be conducted on applicant selected.*
