

LASA/ISTT Two-Day Meeting

Thursday 7th and Friday 8th June 2007
MRC's NIMR, Mill Hill, North London

Transgenics – “Back to basics....and beyond”

Papers to include:

Day 1

- Mice under the microscope
- Cryopreservation and Assisted Reproduction
- Supplementary techniques and refinements
- Transgenics – Construct design and microinjection technique
- Knockouts – Gene targeting, culture and injection
- Considerations and Approaches to Phenotyping Genetically Engineered Rodent Models

Day 2

- RNAi and transgenics
- Nuclear Transfer
- What's in a name? Understanding transgenic nomenclature
- ICSI - Piezo, Laser or both?
- Sperm mediated transgenesis - ICSI and YACS
- Producing mice fully derived from ES cells

The Meeting is split into 2 sessions. The first day is focused on an overview of established technologies, followed on the second day by an array of new and exciting technologies. Therefore, it is possible to book either one of the days or both depending on your level of expertise and interest in the field. The meeting should give you a comprehensive look at the field.

For student/technician ISTT members, there are up to 6 travel grants available to the sum of 250 Euros, please see website for details www.transtechsociety.org.

Please refer to the website www.lasa.co.uk or www.transtechsociety.org for any updates in programme details.

A full programme and comprehensive joining instructions will be sent to all delegates shortly before the appointed date.

Payment may be made by credit card in advance.
