Please register by: May 24, 2024
Registration at [ISTT workshop page](#)

Meet Our Experts:

Auke Boersma

Auke Boersma is a veterinarian specializing in animal reproduction. He has been working for the European Mouse Mutant Archive (EMMA) as part of the INFRAFRONTIER Consortium since 2001, first at Helmholtz Zentrum Munich and since 2010 at the University of Veterinary Medicine, Vienna. In addition to his work in the IVF and cryo lab, he is responsible for the import and worldwide shipment of mouse mutants.

Abby Chott

Abby Chott is customer service representative for both the MU Mutant Mouse Resource and Research Center and the Rat Resource and Research Center. Abby has become an expert at navigating the nuances and challenges of shipping materials (cryopreserved, live animals, etc.), working with a variety of couriers and learning how to deal with the myriad of rules and document requirements by regulatory agencies in different countries.
